

I am asking that station K-LOVE be allowed to continue to transmit over FM translator service. If it went to a LPFM I would not be able receive its transmission. It has been very important to me, my family and friends. It is an uplifting, wholesome, positive impact on us. It also lets us know of local events where the will have the same values and positive forces are going to be held. I want you to know that I and my community would have an empty void if they were not heard in our area.
